

Sharing of surveys?

Would anyone be willing to share their surveys of alumni? I attended the session on Alumni Surveys Tuesday afternoon, and now am thinking I want to re-write our post-reunion survey of attendees and non-attendees to better answer the question of whether we met the goals we hope to achieve with reunions, rather than "did you like the food?". Seeing other samples of what others use would be helpful. Please post to this website, or send me links to surveys. I'd be happy to compile and share if others are interested. Thanks!
